

ALL—IN

COMMUNITY

NARDIINTERNI

Gli spazi dedicati alla vita pubblica favoriscono la socialità e lo scambio di idee per migliorare l'esperienza dell'utente in una realtà sempre più eterogenea. Questi luoghi vengono organizzati seguendo principi di ergonomia e benessere in base alle funzioni necessarie.

Con il progetto All-In tutto questo si trasforma in un'idea di collettività dinamica: un sistema per suddividere, collegare, trasformare e arredare ambienti diversi.

La trasversalità di finiture, dimensioni e materiali, permette di progettare infinite combinazioni. Armadi su misura, moduli angolo, gruppi funzionali e passaggi sono solo alcuni degli elementi che caratterizzano All-In e che valorizzano spazi ibridi per dare ordine, comfort e stile agli ambienti collettivi.

The spaces dedicated to public life favor sociality and the exchange of ideas to improve the user experience in an increasingly heterogeneous reality. These places are organized following principles of ergonomics and well-being based on the necessary functions.

With the All-In project it is transformed into a dynamic collectivity: a system for dividing, connecting, changing and furnishing different environments.

The transversality of finishes, dimensions and materials allows you to design infinite possibilities of combinations. Custom wardrobes, corner modules, technical modules and passageways are just some of the elements that characterize All-In and enhance hybrid spaces to give order, comfort and style to the community environments.
